

A Year Long Celebration of Mathematics

This national celebration of mathematics and campaign aims to reignite America's appreciation of math, engaging people to experience its beauty, relevance, and potential in rich ways by targeting a broad, nationwide audience. The YoM campaign aims to invite people of all backgrounds to explore math without fear of judgment or failure

About the Campaign

As an initiative coordinated by the Conference Board of the Mathematical Societies (CBMS), the 2026 Year of Mathematics (YoM 2026) is a national celebration of mathematics and a campaign that aims to reignite America's appreciation of math, engaging people to experience its beauty, relevance, and potential in rich ways by targeting a broad, nationwide audience. The YoM campaign aims to invite people of all backgrounds to explore math without fear of judgment or failure.

Opportunities for Public Libraries, Community Centers, Schools

- Adult Financial Literacy Sessions
- Film Screenings
 - *Journeys of Black Mathematicians (Parts 1 and 2)*
